REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicants' amendment filed on 12/14/2005 has been carefully considered in view of the specification and the drawings of the invention with respect to the references of the record. Claims 1-44 and ~~45~~⁴⁶-67 are patentable distinct to recite a first module to receive electrical input data obtained at first and second load points of an electric motor, and a second module is operable to calculate a first estimate value of a first estimated variable of the electric motor based on the electrical input data obtained at the first and second load points of the electric motor, and to calculate a second estimated value of a second estimated variable of the motor based on the first estimated variable during operation of the motor without disconnecting the motor from a load. The references of the record either taken alone or in combination fail to teach or suggest the invention as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
